

HML™ WHITE / IR

With 400 Lumens of vibrant white light, our 3 ounce Helmet Mounted Light attaches to a variety of standard helmets with rail capable systems. The three operating modes: constant, momentary and strobe provide a concentrated, high-intensity beam to fill your field of view for close to mid-range target identification. Extensively tested for performance, durability and reliability, its compact, durable design is simple and easy to mount – with no need for additional tools. High efficiency emitters provide up to 1.5 hours of runtime in white mode, or 4 hours in infrared mode; instantaneously switch between modes with just a flip of the lever. In addition, the easy-to-operate lockout system ensures the light isn't activated until you're ready.

ACTUAL SIZE

GEN²

FUNCTIONS	Constant / Momentary / Strobe
MODES	White / Infrared
OUTPUT	400 Lumens (white mode) 100mW (infrared)
RUNTIME	High efficiency LED provides up to 1½ hrs (white) / 4 hrs (infrared)
WEIGHT	3.22 oz/91.2 g with battery
SIZE	Length: 4.20 in/10.7 cm Bezel Diameter: 1.05 in/2.7 cm
MOUNT	Integrated MIL-STD-1913/NAR rail. No tools required.
ACTIVATION	Ergonomic contoured design for easy on/off.
LOCKOUT SYSTEMS	Safety Lever / Head Rotation
CONSTRUCTION	Glass reinforced polymer body offers high-impact resistance and durability. Patented heat dissipating vents for improved LED thermal management.
WATERPROOF	Up to 66 feet
BATTERY	1 Lithium 123a included. Head removes for battery replacement.
